

Helium410

Helium410 is handmade in Finland and due to its controlled dispersion it keeps its clarity even when placed close to the boundaries, such as desktops, TV tops, bookshelves or side or back walls. Despite being small and easy to place Helium410 sounds fullbodied and works nicely without a subwoofer.

Technical specifications

Operating principle	Two-way, vented
Tweeter	1" titanium
Mid / woofer	4½" paper
Crossover point	1600 Hz
Impedance	8 Ω
Sensitivity	86 dB
